

# Cirrus CAPS: Techniques, Operating Procedures & Wings Program

Learn new 'Manufacturer' procedures for the deployment of the Cirrus Airframe Parachute System (CAPS). We will discuss new deployment procedures, operating parameters, and case studies of CAPS deployments. While tailored for Cirrus pilots, the case studies will be relevant to all pilots.

\*In addition, learn about the FAASafety.gov WINGS program and how you can earn credit to stay current and proficient!

**Directions:** Meeting in the Aviation Business Center (conference room).

## A message from the National FAASafetyTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
